### PERSONAL STATEMENT

I have 20 years experience in drama production. Initially in the AD department, where I worked my way up to 2<sup>nd</sup> AD. I then moved across to production, where I have been for over a decade, most recently working as a Production Manager. My work has predominantly been in continuing drama and I am now actively looking to make the step across into HETV. I believe I am eligible for ScreenSkills Make a Move HETV funding.
