PROFILE

I'm a filmmaker based in London SW15 involved in a wide range of digital content production. I shoot using the Sony FX6 Cinema Line camera which produces industry demand 4:2:2 10-Bit colour depth and also stock a range of professional audio & lighting solutions. I have a proven track record in delivering spirited and meaningful projects from clients such as AndreX and the National Police Air Service.

I have project managed a feature documentary from concept onto the big screen in 2022, allowing me to thrive working as part of a larger team, creating content that is derived from passion.

PRODUCTION RATES

	EVENT FILMING	PROMO FILM
SINGLE CAMERA OPERATOR	£450 FULL DAY	£650 FULL DAY
SECOND CAMERA OPERATOR	£250 FULL DAY	£250 FULL DAY
AUDIO REPRODUCTION	£200 FULL DAY	£200 FULL DAY
SMALL LIGHTING SETUP	£200 FULL DAY	£300 FULL DAY
EDIT & PRODUCTION	£250 FULL DAY	£250 FULL DAY

The above rates are accurate when applied to short project work over a long weekend for example. However, for longer durations a bespoke quotation would better reflect costs as generally speaking, reductions can then be built in.

Travel costs and accommodation are not included in the above costs and should these be necessary, again, a quotation for the specific project is recommended.

I have strong connections within Lithuania, Slovakia, Hungary and Italy which may prove useful when involved in project work outside of the UK. I have travelled extensively and cannot express how much I enjoy working with individuals or a team when abroad. Having years of these experiences has been vital for me when building trust with partners quickly, working together to achieve a common goal with powerful results.
