

An efficient and versatile editor with a reputation for compelling storytelling and a genuinely collaborative attitude. My recent work includes Sky Doc's Dart Kings; an archive-based documentary exploring darts' golden age, and The New Generation for Amazon - a behind the scenes look at life for young england football players. I have also worked on fact-ent shows like Channel 4's Love Triangle, as well as obs-doc shows like Drive To Survive and 6 Nations: Full Contact for Netflix. As well as this, I have several years of experience as a development sizzle editor both in the US and UK, helping to bring new ideas to reality in almost every genre.

SIZZLE EDITING

I have cut many development sizzles throughout my career as an editor, spanning almost every genre. As well as a period as a dedicated sizzle editor for October Films, I have worked with leading production companies like Mindhouse, Hidden Light and Candour to make exciting, engaging sizzles that help secure a greenlight.

TRAINING

Jan '16 - FEST FILM LAB Editing Workshop with Mick Audsley
