PROFILE

I am a hard working, and I work well in fast paced office environments. Thinking logistically and problem solving is something I enjoy, and I love building, automating and maintaining a spreadsheet. I have experience with MS Office Systems, Scenchronize, Box, Dropbox and DPO. I am always keen to learn new systems. I am also no stranger to manual labour, be that transporting and organising the water barrels or building flat-pack furniture for the production office.

I have a **full clean drivers license**, and a **car with commercial insurance**.
