## REFERENCE

On request

## PROFILE

I am a professional hair and makeup trainee/junior with over 6 years of experience in hair and makeup. I have over three years of industry experience in crowd rooms, and main team. I have been told my main skills as a trainee are professionalism, ability to work well under pressure, the ability to read a room, and good at technical skills needed when it comes to working with technology. I am currently between the stages of trainee and junior, ideally I would like to take on more junior work, but I still enjoy certain responsibilities on a trainee role, and will put 100% of effort in to any work I am offered. I am also a fully qualified barber, and willing to travel in and out of the U.K.
