BS7909 Certificate in Temporary Power Systems

BS7671 Requirements for Electrical Installations

I am the Company Director at Von Däniken Limited, a creative lighting company based in the North of England that provides services for Film, TV, and live productions. With over 18 years of experience in Film and TV lighting,

Before moving into Film and TV, I had a successful career in lighting design and technical management for live events, with over 50 lighting design credits for theatre and dance productions around the world. I also worked as a Technical Production Manager on live events for companies including Phoenix Dance, Reckless Sleepers and Forced Entertainment, managing the logistics, and technical aspects of their shows.

I am passionate about finding creative solutions that allow the vision of the director, DOP, and designers come to life, and I am proud to be part of teams that have created some really stunning work.
