Introduction

A seasoned Film & TV SA and a highly skilled operations lead for large scale events, looking to further develop my skills as a crew assistant. I recently completed the Film & TV Location Assistant Intensive Training course run by Liverpool Locations and keen to get to work as a Location Trainee to put my learnings into practice.

I have a proven track record working well under pressure on some of the UK's largest music festivals, with the ability to multi-task with meticulous attention to detail, across pre-event planning, financial reporting, managing onsite access control operations, and coordinating up to 200 staff per event across entrance hubs. With direct transferable skills, I also have a keen interest to develop skills as an AD.
