- Editing using Avid
- Editing using FCP X
- Line Management

### **About Me**

I'm an award-winning journalist who has been lucky enough to have been at the heart of the biggest news stories for almost two decades.

From UK Politics in Westminster and around the UK, to American politics across the States. I've produced multiple LIVE OB's in the UK, America and from the Ukraine/Poland border at the start of the Ukraine war.

I've interviewed many celebrities on the red carpet and in junkets as a showbiz reporter here in the UK and produced the Oscars from Los Angeles multiple times.

I've been a Bulletin Presenter for Channel 5 News' lunchtime, evening and weekend news updates. I've voiced thousands of news reports which have all broadcast on 5 News at ITN and SKY. These include hard news stories, light news and features, as well as acting the roles of many anonymous case studies.

I am now working across all Voice over work including films, documentary, corporate, commercials and educational.
