PERSONAL PROFILE

Driven by collaboration and continuous learning, I value creating meaningful connections and achieving goals in aspects of the work I have done. I am looking to get an opportunity where I can develop new skills, along with being able to bring the current skills and experience I have within a forward-thinking, productive environment.

KEY SKILLS

- Friendly
- Diplomatic
- Problem Solving

English Literature - 6	Chemistry – 4
English Language- 5	Physics – 4
Business Studies - A	Product Design – B
Mathematics - 5	Religious Studies - 4
Biology - 4	

HOBBIES & INTERESTS

Reading in Languages – Spanish, Online Blogs, & Non-Fictional Genres

I enjoy reading both fiction and non-fiction, whether print or digital. Learning elements of a new language helps me to improve my skills and explore different expressions. I love the worldbuilding in a fantasy genre as it provides a creative escape.

Drawing: Sketching Figures via Sketching & Digital Software (Photoshop)

In my free time I love to draw. Whether by hand or sketching, it sparks my imagination. I find that everyone’s interpretation of what we see can be unique. Drawing is a powerful way to reflect the range of perspectives.

Psi Performance Studies International Conference – Hello Stranger (UK) | Ambassador | June 2024

I had the opportunity to communicate with a panel and engage with an audience, reflecting on a performance-based project in the V&A Museum’s lecture hall. This experience has reflected how I am able to communicate concepts confidently and clearly to a varied audience.

**I have designed my own web-site to showcase my work and freelance opportunities
