ABOUT ME I'm a recent Film and TV Production graduate with a real passion for storytelling through different kinds of media, including film, television, music videos, documentaries, and interviews. I've had the chance to work on both student projects and industry-level sets, gaining hands-on experience with cameras, lighting, sound, and editing tools like AVID and Adobe. I enjoy collaborating with others and also feel confident working independently or taking initiative when needed. In my free time, I'm into football, golf, screenwriting, and watching as many films as I can.

ON-SET EXPERIENCE
