

Name: Mr. Jake D Burton

National Insurance Number: PH 86 63 79 D

DOB: 02/11/2002

Email: Jake.Burton2002@yahoo.com

Phone number: 07875321711

Address: 120 Smithurst Road, Giltbrook

Eastwood, Nottingham, NG16 2UP

Personal Summary

Motivated and technically minded media production graduate with hands-on experience in live broadcasting, AV system setups, and camera operations across events and sports. Skilled in configuring broadcast equipment (SDI, XLR, CCUs), safely running cables, and maintaining technical quality under pressure. Currently assisting engineers at Citigas, broadening knowledge in systems and engineering.

Known for being a reliable, friendly team player with five years of rugby experience and strong communication skills developed across diverse work environments.

Skills

Technical Skills:

- Camera Operation (Broadcast, Gimbal, Sony, Canon, Blackmagic URSA)
- Connecting and Configuring CCUs

Software:

- Adobe Premiere Pro, DaVinci Resolve, Filmora

GCSE SCIENCE: 6,5

MATH'S: 5

GCSE LITERATURE: 5

BTEC IT: MERIT

GCSE ART: 4

Work Experience

Live Camera Operator – Reggae Land Festival (2025)

- Operated & maintained professional broadcast cameras as part of a multi-camera team for a 30,000+ attendee music festival.
- Captured dynamic crowd, performer, and band shots under the direction of the vision mixer.
- Maintained equipment, managed lens changes, and resolved technical issues in high-pressure settings.

Freelance Camera Operator – Cymru Vision (July 2023 – Present)

- Captured live boxing, MMA, and Muay Thai events including walk-ins, ringside views, and interviews.
- Handled multiple cameras and gear (Sony, Canon, URSA, Gimbals).
- Set up cables (SDI, XLR, Ethernet, Fiber) and connected inputs/outputs for live production mixers.
- Featured on Sky Sports and UFC Fight Pass for clients such as Caged Steel, FCC, HitMan Fight League.

Framework Knitting Museum promotional video (2025)

As part of my studies, I was asked to produce a promotional video for framework Knitting Museum, as part of the brief to also encourage parents to bring their kids along to socialize and expand their knowledge on the history of Nottingham.

- [Watch here](<https://youtu.be/F0s5kiTaBpU>)

"It was a real pleasure to work with Jake on our project to create video content to promote the museum as a family attraction. The work was completed on time to a really high standard with the minimum of fuss, we have no hesitation in recommending Jake to any organization looking for video work."

-Ian Rowson, Chair of Trustees, Framework Knitters Museum-

Holiday Home Promotional video (2024)

To help sell the house to potential viewers/buyers I would use cinematic push-in shots as if they are on a virtual tour & I know the importance of music/audio as it can make or break your production if your viewer doesn't feel engaged with the video by adding the right music and copyright free. After the production, I uploaded the content to Facebook marketing to help expand their potential clients.

- Filmed and edited cinematic property footage using drone shots and tour-style visuals.
- Created engaging, copyright-free soundtracks and uploaded to Facebook for real estate marketing.
- [Watch here](<https://youtu.be/kEFtj6hRfxo>)

Derbyshire FireServices adverts (2024)

Derby Fire Services Speeding ad: <https://youtu.be/Kfz1wVwPkWM>

Derby Fire Services Seatbelt ad: https://youtu.be/IRAp_11JleU

As part of my studies at university I was assigned to produce a speed awareness video for Derby fire-services Instagram page, which as part of the brief required me to create eye catching shots which engaged the viewers and left a memorable impression.

- Produced seatbelt and speed awareness videos for Instagram.
- Directed dramatic visuals to depict the consequences of drink driving and speeding.
- Coordinated meetings and updates with Derbyshire Fire Services.

Associate at Citigas (Feb 2025-present)

Since February, I have been working for a plumbing, heating, & engineering company called Citigas as an associate for administrative work, where I would answer the phones, emails, & greet customers as they walk into our showroom, assisting with taking payments, recommending the best appliances & accessories. When not in the office, I would be assisting engineers with plumbing and engineering tasks, including fitting boilers, fitting flues, soldering pipes, fitting radiators, setting up control panels & more. Even though I have experience from taking engineering as a subject in school, hands on experience is more beneficial.

Working in America (May 1st – July 3rd 2025)

I worked in Connecticut at a summer camp for adults at weekends and children during the week, where in my role as a camp counsellor I had to maintain a fun and enthusiastic environment while building relationships with others and my group by engaging in conversation and understanding what activities they wanted to do. If I wasn't a camp counsellor, I would have been in the office responding to email enquiries in an effective and timely manner as well as answering the phone to negotiate bookings

Hospitality work experience (2021-2024)

I have worked in hospitality since 2021 starting with Nando's for one and a half years, then moved to a Wetherspoons for another year and a half then to Belfry Hotel where I would greet customers from the moment they walk in with a passionate and friendly attitude and do what I can to look out for customer satisfaction and have a memorable experience with the company. I have also adapted to the Covid rules, and learned about the new products, such as cocktails that were introduced in Weatherspoon's. experience and the products we serve.

Own time edits

In my spare time when I do activities with friends or family, I like to record our experiences & turn them into little montage/highlights videos which you can see below.
