2019 – 2022, University of Birmingham BA Hons, 2:1

I have training, experience, and passion for anything to do with the arts, particularly in designing and creating costumes. I work on a regular basis with fabric from own my own small business in creating scrunchies from up-cycled fabrics, as well as making my own clothes. I am highly organized and adept at working both independently and collaboratively, I have a commitment to bringing forth others', and my own, ability and creativity to simultaneously enhance the visuality and physicality of creative projects.

Media Experience

February 2019

Work Experience, Prime Theatre

- Experienced the behind the scenes of planning and working in a theatre company.
- Developed an 'easy to read and find' contacts spreadsheet for the company's alumni students from their youth theatre
- Created plans for workshops, auditions, rehearsal processes and performances as a side art award with the work experience.

October 2022 – December 22

TV & Scripted Drama Bootcamp, Create Central

- Training for the industry with Masterclasses from professionals in their department
- Placement on Doctors for 2 weeks and filming our own scenes for the show
- Hands on training with a 3-day filming intensive of our own scene and taking on roles in our chosen department area of interest

Experience

July 2018 – November 2018

Fabrics Sales Assistant, John Lewis at Home

- Developed an understanding of how to communicate in a professional setting and deal with a wide variety of customers.
- Quickly learned the computer program to create 'made-to-measure' items for customers.

March 2020

Sales, Crufts

- Developed the skill further to adapt communication to suit the needs of the people I was speaking to during a busy and intense environment.

June 2021 – August 2021

Sales Assistant Temp, Next

- Placement in the children's department further developed skills in understanding and communicating with children and their different requirements while also understanding the current fashions for varying ages.
- Working in the peak of summer encouraged development in a calmer approach to work to better cope with the fast pace and high intensity of the environment.
