SUMMARY

I am a new entrant hoping to work in Locations for Film and TV. I am a friendly, detail-oriented person who enjoys working in a team, which was a large part of my role as a lifeguard. I have a good balance of creative and practical skills, practiced throughout my film degree, which I am keen to bring to set with positivity and dedication. I am open-minded and hardworking, with skills in problem-solving and coordination gained through working as a marine assistant, where I have collaborated with a diverse range of people and environments. I look forward to bringing my adaptability and people skills into production.
