SW11

With a brilliant start to my VFX supervising career and many years of experience as an On Set VFX Data Wrangler, I would make an excellent addition to your VFX team.

With many of the projects I've been involved in going on to win Oscars and Emmys for VFX, safe to say my processes are world class. I was also trusted to be main contact for the VFX team for block 3 of Avatar Fire and Ash, dealing directly with James Cameron and 2nd Unit Director Garret Warren.

I've managed teams of up to seven On Set VFX Data Wranglers and VFX PAs on complicated shoots. I was also the sole water/diver VFX wrangler on water tank based shoots during Sweet Tooth and Deep Water. "You are invaluable Nicolette" - Leigh Whannell, Director of Wolfman.

I have a full On Set VFX Data wrangling kit containing Song A7 MkIII and lens kit, Xrite and passport colour checkers, several VFX balls, disto and size measures, Creality Otter, Theta Z1, Go Pro Hero 11 and more niche items.

I am based in SW11 London and happy to travel. I can legally work in Europe, UK, Australia and New Zealand.
