## SUMMARY

I graduated from St Mary's University in July 2025 with a BA in creative production. I can program on both Chamsys and ETC lighting desks and create Qlab files. I have worked in theatre for 3 years and am looking to transfer over to film. I have recently completed a course at all spring media.

---

## RELEVANT TRAINING

### **Production Assistant Course, All Spring Media, September 2025**

I have undertaken the production assistant course at all spring media which gave me an overview of the film industry and the basics on what it means to be a production assistant.

## THEATRE WORK

### **May 2025, Dunsplay fest, scottish borders**

I was part of a team responsible for running and maintaining the shows. I was a part of the main stage team, and as an ASM I was responsible for distribution and maintenance of radio mics, helping set up bands, organising shows with large numbers of people at all ages. I also helped taking set on and off stage during the shows and running technical rehearsals from a backstage point of view.

### **December 2024 - Present, teatro technis camden**

I am responsible for turning everything on, running pre show checks, operating the show and turning everything off after the shows. I can also be required to do simple lighting programming or qlab files on the day. I can undertake most things from house technician to stage manager to show operator.

### **Show OP, December 2024 & , July 2025 well walk theatre, hampstead heath**

I was hired to operate a children's puppet show. I was responsible for turning everything on, running pre show checks, operating the show and turning everything off after the shows. I was also required to make edits to some cues in qlab during the rehearsals.

## EDUCATION

### **CREATIVE PRODUCTION, SEPTEMBER 2022 - JUNE 2024, ST MARYS UNIVERSITY, TWICKENHAM**

Creative production was a 2 year degree pathway where I covered the basics of theatre. I learned everything from lighting and sound to stage management and design.

## SKILLS

Microsoft packages - word, powerpoint, excel.  
Lighting consoles - ETC and Chamsys  
Qlab  
teamwork and communication in fast paced environments
