ABOUT ME

My goals for the future are to have a successful career, earning a name for myself in either the film or game industry (preferably both) working as a concept artist, general 2D/3D artist or being apart of the production art department specifically as a production designer. I want to be able to have a part in creating and designing future stories yet to be told which can have a lasting impact on people like previous films and games have done for me.

SKILLS

- **Blender**
- **Substance 3D Painter**
- **Photoshop**
- **Time Management** – always arriving on time for my part time jobs and for lessons/lectures both in school and University. Ensuring tasks administered were always completed at a high standard and submitted on time.
- **Collaboration and Teamwork** – having played in a girls' football team for over 12 years, I have learnt to work together with my teammates and communicate with them efficiently to benefit the team. Moreover, whilst doing work experience at DNEG I collaborated with people I had only known for a few days to create an impactful story and equally share our thoughts and ideas.
- **Communication** – During the work experience at DNEG collaborating with other people was a great insight into what it's like to work with a team and simulated communicating with different departments.

EDUCATION

Concept Art for Games and Films (BA Hons) | Staffordshire University
2023-2026

A-Levels | Merchant Taylors Girls School, Crosby, Liverpool
2016 – 2023

Art – A

Psychology – A

Religious Studies – A

EXPERIENCE

Work experience at DNEG Headquarters (London)
July 2024

- Learnt about the movie industry pipeline and the process of making a film
- Tasked to collaborate with the 5 other people, I was in a group designing 5 individual anthropomorphic characters and mixing the characters together to create a storyline. Eventually we held a presentation pitching our story to the other employees that worked at the office.

- I took part in an improv and life drawing class held at the office with employees.
- I attended talks on the importance of soft skills and presentation skills that are necessary in industry.

ResLife Assistant

September 2024-August 2025

- Strengthened my communication skills having to organise and run events, talk to and welcome first years moving away from home for the first time.
- Doing wellbeing accommodation drop ins weekly to chat to and check up on students.
- Involves regular admin work e.g. distributing room keys to people moving into accommodation.
- Working well in teams that ranged from 3-12 people on busy event days at the university.
- Additionally, managed projects independently by running events for students on my own.

Work Experience – Revisiting DNEG Headquarters (London):

11th – 29th August 2025

- Produced industry standard work for shows that are in production.
- Utilising my blender and photoshop skills and presenting to an art director every day (dailies).
- Working for 3 weeks in the London office with the motion graphics art team.

INTERESTS

Football 2012 - 2024:

- I Have remained a part of a team for 10 years now called MSB Woolton based in Liverpool.
- Recently making it into Division 1 of our league and being able to play in different venues like Marine FC stadium and Rochdale FC's stadium also known as Spotland Stadium.
- Able to experience the rewards of persevering at a hobby for numerous years and being able to see consistent progress in my own ability and in the team overall.
