POST-PRODUCTION SCRIPTS
ON-SCREEN CLEARANCES, MUSIC & ARCHIVE

I can provide a variety of services to help with the demands of a busy production. Multi-faceted, resourceful and creative, you can use my experience & imagination to support production goals, save money, solve problems & reduce stress. You also have the benefit of my experience as a co-ordinator, taking projects from pre-production through to post and delivery.

In addition to the variety of skills developed in the production office, I have a solid working knowledge of copyright law and extensive experience of legal clearances, licences and release forms for music, archive, products, artwork, and brands. I'm a terrific negotiator and problem solver.

I have an effective and adaptive approach using initiative, flexibility and reasoning. I am succinct, and liaise with ease between cast, crew, production companies, vendors and distributors.

Book me for a few hours administration to help the office catch up, or for longer term roles overseeing clearances, music & archive through the shoot, to post-production, paperwork, & delivery.

We can have a chat and find a solution that works for your production team and your budget. I work remotely, and I'm glad to provide references who can attest to how well this works.

On longer term roles, I find it can be productive to spend a few days in the production office to run through processes and discuss any issues or concerns. This helps to create a short-hand between myself and the team, so in those stressful moments they know they can call on me. I always keep track of shoot days and hours, and will be available if any last minute queries arise on call or wrap.

15 years experience as a Production, Post-Production & Clearance Coordinator and Production Manager on TV Dramas, Comedy, Films & Promos. Broadcasters & production companies include:

BBC, SKY, NBC, NETFLIX, AMAZON, CHANNEL 4, CELADOR, STUDIO LAMBERT, OBJECTIVE MEDIA, LEFT BANK PICTURES, ROLLEM PRODUCTIONS, CARNIVAL, TWO BROTHERS PICTURES
