Testimonials

“Christiaan gets on very well with his colleagues and is clearly a talent. Christiaan is extremely good at organising his time when creating features. He plans accurately and it was notable that he completed his film well within the schedule and without serious alarms.”

- Tom Lewis, Course Leader at The National Film and Television School

“Christiaan would be a strong addition to any team wanting a long-form creative thinker”

- Steven Saunders, Director of Digital Content Production at IMG

“Christiaan started out helping with small tasks in the kit room and slowly grew into a valued member of the team. He shows a willingness to learn especially when it comes to the technical handling of film and video equipment. What's often overlooked is also his ability and initiative to troubleshoot problems when they arise.”

- Khairul Amin, Senior Technical Coordinator at London Film Academy
