

Jack Wase

Prop Maker

Creative making has always been a core passion of mine. I started by making toys and models as a child, to studying Modelmaking as a student, and most recently, working in blockbuster films on props and set decoration.

With each project I push myself to develop a new skill, whether that be a new piece of workshop machinery, CAD software or making process. To me, learning and developing skills is just as rewarding as completing each project.

Employment History

Prop Maker at Richardson Prop Making

JULY 2023 – PRESENT

I worked in a small team producing high end props and set decoration pieces for films, including Star Wars (The Acolyte) and Gladiator II, as well as the Prop Hire Company.

I also created advertising models for IKEA as part of a charity campaign in store and across social media.

Self Employed Handyman

JULY 2022 – PRESENT

I have worked in and around customers homes, carrying out repairs, maintenance and construction for a wide variety of people, a regular of mine being a member of the House of Lords. Alongside decorating and repairs, I have made a sauna, media walls and various garden furniture to suit each of my customers needs and vision.

Sales Assistant at Johnstones Decorating Centre

AUGUST 2019 – JUNE 2023

I mixed and supplied paint to a variety of tradespeople and coating specialists. I assisted decorators with quoting and providing specifications for their clients, alongside organising deliveries, training staff and general management of the shop within a close-knit team.
