

# HENRY MURRAY

## Profile

I am a recent Master's graduate in 'Film Production' and trainee across multiple professional projects. Adept at working within factual and fictional projects, taking on roles such as grip trainee, camera assistant/operator and runner. I am primarily experienced in problem solving, multi-tasking and working harmoniously with crews to achieve goals on location/studio shoots. Reliability, timing and organisation are all tools of the trade that I am well experienced in and excited to apply to more projects.
