PROFESSIONAL SUMMARY

Personal statement I am a team player, self-motivated, and can work on my own. I have led teams and thrive in a creative environment. I am willing to learn and think I will be an asset to any production. I am in my second career and have brought forward elements from my time in the British Army, Leadership, Mentoring, Team Building, and Instructional abilities. I also have a set of standards, Respect, Integrity, Selflessness, and enthusiasm. During my time in service, I have endured the toughest and most stressful environments known to man. That time has forged a proactive individual willing to go the extra distance. Though I come from a competitive and team background I am sensitive to the needs of the modern workspace and pride myself on my enabling skillset.
