Based in Worcestershire & Birmingham, Willing to travel

Camera trainee with a passion for film looking for more on-set experience. I have experience working on both large and small sets, and have worked with a variety of crews. I have a deep understanding of cameras, camera equipment, and the production process. Anything I do not have experience with, I am eager to learn more about and gain more experience. I am willing to work with many people, learning from each of them as I progress in the film industry.
