## Summary

I am an enthusiastic Prop, Small Set and Costume & Accessories maker, with experience in the TV and entertainment industry. Specialising in creating both bespoke and film replica perfect pieces for television, event display, short film, music video and red-carpet events. I understand how scripts provide the information for the Prop and Art depts and how this is then interpreted on to screen. I also have experience working as a Set Dresser for scripted TV dramas.

## Experience

- Various 'soft'; bespoke and replica props for BBC television series (currently filming)- Art Director: Helen Watson
- Full head mould and cast- vac formed pull to create bespoke face tattoo stencil: Darth Maul for Phantom Menace (2012) red carpet event
- "1986 Cybermen" (original and 'Black Stealth'): Brit Sc-Fi event- National Space Centre
- Sculpt, mould and cast fully pigmented latex cast- Ahsoka inspired headpiece
- Full head Orc mask, with hair: short film
- Supplied and fitted a large selection of 'zombie' and bite mark prosthetics: music video MiVi
- Bespoke full latex and foam arm sleeve for 'in-game' character: May The 4<sup>th</sup> event- National Space Centre
- Designed and dressed multiple public houses for Halloween celebrations (including 'severed finger trees')
- Bespoke and film replica perfect costumes (soft and armoured) and accessories including blasters, staffs and jewellery for premier costume club red carpet events

## Application

Fabrication of props and accessories using a variety of materials and finishes including, but not limited to:

- Multi-part mould making and casting (inc cold casting) using silicones and alginate
- Understanding of manipulation of materials e.g. resins, PLA, PETG, TPU, ABS, Worbla, re-mouldable rubber (inc expanding foams) and latex
- 3D printing and vacuum forming (inc creating bucks)
- Airbrushing and brush techniques including 'weathering' using latex, layering and sanding, using a variety of media
- Sculpting using clays, foam and styrene
- Basic woodworking skills

I have the passion and drive to succeed, as I have with everything else in my life thus far. I am committed and put my heart and soul into all that I do, and I hope to have the opportunity to share this with you further.

I am able to work independently but enjoy working as part of a team. I keep a clean and uncluttered workspace; understand safety protocols and procedures and am computer literate, including use of AI and FDM slicers.
