07395552676

I take a people centred approach to logistics and coordination, developing organisational, technical, and on-set communication skills through multiple film and music projects. My eye for composition and detail stems from my background in photography, giving me a practical understanding of filming locations. I bring a problem solving mindset to each project and adapt as needed to support the team through production challenges.

-
- Coordinate productions across films, music videos, and live events with precision and efficiency
 - Scout locations, plan logistics, and manage on-site operations seamlessly
 - Optimise on-set workflows and lead crew coordination to keep shoots running smoothly
 - Prepare call sheets, schedules, and support shoot planning from start to finish
 - Provide assistant directing support and solve production challenges proactively
 - Oversee festival and live event operations, including crowd flow and venue management
 - Lead teams, supervise staff, and communicate clearly with clients and stakeholders
 - Expert in camera, lighting, and production software (StudioBinder, Movie Magic, Adobe CC,)

Freelance Production Assistant 2022- present

- Supported 20+ indie shorts and music videos, coordinating daily on-set workflow
- Assisted with location setup, access planning and crew movement
- Created call sheets and maintained safe, organised working environments

Freelance Creative Producer (Photography & Video) 2022- present

- Managed shoots from concept to wrap, coordinating locations, crew and equipment
- Delivered visual content for musicians and digital platforms
- Applied strong visual judgement to framing and location suitability

Festival Operations Manager 2020- present

- Led on-site operations across major UK festivals including Boiler Room, Boardmasters and Silverstone F1
- Coordinated teams, suppliers and event stakeholders
- Managed recruitment and supervision of large temporary crews
