PROFILE

I am a TV graduate with hands-on experience across live television, events, and commercial productions. I specialise in camera operation and visual storytelling, with a strong understanding of production workflows from planning through to post-production. I'm confident working in fast-paced environments and collaborating with teams to deliver high-quality content.

After graduating, I wanted to develop my creative perspective whilst travelling, and aim to bring my newfound frame of reference into my career. I am open to freelance opportunities and future roles within film and television production.
