Overview

My accredited experience thus far has required me to complete a wide spectrum of tasks. In many of the films and one of the operas I was able to work hairdressing assignments as well as the makeup. Mr Wiggles involved working with very young child actors and creating cuts, bruises, grazes and other injury effects. The needs of the various films have also included natural and glam looks, ethnic skin types, young, mature and ageing effects. As well as having had to manage some thirty extras within (as always) a very tight time schedule in addition to the main characters, my experience covers indoor and outside sets and locations, day and night, lit and dark.

NASMAH member since 2014.
