### Career Summary

As a dynamic and experienced production sound mixer, I have been contributing to films and documentaries for a variety of international production and broadcast companies across the globe since 1995.

I have a firm grounding in productions that require a high degree of self-sufficiency and resourcefulness, so you can rest assured that I will always approach new challenges with enthusiasm and creative solutions.

I am equally at home working in higher-budget features, quality television drama as well as in ground breaking low-budget cinema, all projects are always treated with the same dedication and passion for a top notch end result.

I speak fluent English, Dutch and French, have notions of German, and own / operate a comprehensive film sound kit with time code facilities for multi-camera shoots. (Full equipment list is available on request)

If you would like some more information about my skills and experience, then please don't hesitate to get in touch.

### TV shows / Documentaries / Corporate films / Commercials

Throughout the years it has equally been a privilege to have been given the opportunity to record sound for in excess of 200 documentaries and TV programs for the following broadcast companies:

We have also proudly served the following corporate clients :

For video samples of my work I would like to refer you to my website : <http://www.freelanceavs.co.uk>

There you can also download this CV document, as well as link through to my IMDb page.

## References

**"Johan is my all-time favourite. His work is absolutely outstanding. He is a superb technician, a creative problem solver and a wonderful guy to work with."** Luk Wyns - Director / Producer - Diamond City Films

**"Johan's commitment to our film was total from day one. Both the quality of his work and his positive attitude a joyful addition to any crew."** Sol Papadopoulos – Producer Hurrigan Films ltd

**"I tend to make very ambitious films, and my way of shooting is very adventurous. Usually, this gets in the way of all of our on-set sound mixers. In the case of ID2, where I worked with Johan, it was the first time that someone had my back. Johan is truly a professional, an artist and an obsessive in the details of his craft. The sound was not only great, but we were able to achieve our super complicated shots with all his support. He is collaborative, easy to work with and his sound is top of the line quality. What else can a director ask for in a sound mixer? If you want your film to have great sound without compromising the visual storytelling, I advise you to hire him, eyes closed"** Joel Kinnaman - Director I.D.2

**"Johan worked with us on a feature in the UK last March. For the sound crew it was a difficult film since the camera continually moved in unexpected directions and so all actors could be on camera at all times. Johan was fast, efficient and easy to work with, turning in excellent sound under these difficult conditions. The director and I will certainly want him on our next film"** Sally Hibbin - Producer - Parallax Independent Films

**"Johan was an integral part of my core team for 'The First Film' and he was especially useful in France as he was the only one of us who could speak the language. In other situations in the UK I found his suggestions regarding the way I was phrasing certain sentences very useful. Because, as I was the director, producer and the presenter I sometimes needed guidance. I have already recommended him to other filmmakers and will do so again."** David Wilkinson – Producer / Director – Guerilla Films

**"Johan is not only a pleasure to work with, but trustworthy and reliable. He performed his job as audio recording mixer on our films without any errors or issues. He's the type of person one desires to have on their team because he needs little management and he's a team player. I highly recommend him."** Kacy Andrews - Producer - Bigfoot Entertainment

**"Johan has worked on several of my short film projects. I can't see myself working with anyone else for sound recording, his work is of an incredibly high standard. Johan's knowledge, experience and enthusiasm for this industry is impressive. I highly recommend Johan's services, you would be in very trustworthy hands!"** Danny Lacey - Director – Stadamedia
