Principal business and skill areas:

- Provision of health & safety services for the film, television, theatre, events and entertainment industries, including location safety supervision, site surveys, risk assessment and advice. I can provide training for all personnel from new entrants to senior management level. Production safety work is carried out with full knowledge and experience of the requirements of the industry, due to my 40 year career at the "sharp" end as well as extensive experience in the management environment.
- Provision of water safety services including shore and boat based teams with rescue training and experience, full HSE qualified dive teams and professional boat handlers. Marine Co-ordination also provided.
- Health & Safety training courses for all levels in the film and television industries, customised to meet the client's requirements.

Film and Television Drama Related Health and Safety Activity (2012-19):

(Health and safety services provided to all productions, unit medics and water safety also provided to several of them)

(Television drama series or single drama unless specified)
