

Chris Sowden

Gaffer Electrician

I am a qualified 18th edition electrician and started out in TV and film in 2000 at ITV working on a wide variety of productions. Over the years I have worked on many different formats including film and Digital large format working on both location and in studios. Many of these productions have resulted in working in different countries across the world including France, Germany, Malta, Italy, Sri Lanka, Malaysia and Scotland. Over the years I have built a great knowledge of TV and film lighting requirements and have various qualifications and skills which help productions and D.O.P's get exactly what they need in a safe, reliable, hassle free and cost effective way.
