I am a multi skilled, exceptionally adaptable and creative designer. I have gained most of my experience whilst 'on the job' having had the pleasure of working alongside some incredibly talented industry professionals in a variety of roles over the years. This has gifted me an excellent foundation whether in period, contemporary or fantasy worlds. I am well seasoned in working to tight deadlines, and with a variety of budgets. I thrive on other people being as passionate as myself. I am equally comfortable in Film and Television, and have a highly responsible and professional attitude.

Education : BA hons in Theatre and Performance Design, The Liverpool Institute of Performing Arts (LIPA)
