I have great passion for travelling and take advantage of any opportunity available. I have already travelled around the West Coast of America and would love to see more. I enjoy going to festivals and watching and listening to different bands. I frequently give up my spare time to help an amateur production team styling hair for their pantomime's and plays. I enjoy it very much and also doing the photo shoots for different companies including Toni and Guy, which is the company I am working for at the moment.

**Programme interests:**

I always assist and shadow any chance I get. I know I have to start here first and work my way up the ladder. The films/dramas I admire are Pride and Prejudice, Pearl Harbour, Chicago, musicals and the all time favourite Grease. I love the times of the 1920s to the 1960s and enjoy watching and reading period dramas. I love all these eras for the hair, clothes, fashion, make-up, the dancing and the music. Each era is different but still glamorous. From the 1920s bob to the 1960s Mary Quant cut.

**Away from Work:**

I enjoy swimming and badminton, pilates, yoga, zumba, salsa dancing anything that keeps me active and fit. I enjoy going to different art exhibitions on my days off as I have great passion for art and I draw and paint in my spare time. When I get the chance I go to the theatre as I love watching different shows. I do go to drama class each week too which I very enjoy a lot.
