Recently Graduated BA (Hons) Broadcast  
Media First Class Degree  
University College for the Creative Arts  
The Maidstone Television Studios, Kent

Media Production  
Drivers license with own car

I am a bright, enthusiastic individual. My main aims and interests lie in the production process, in particular the running of productions. My strengths include being a good organiser, communicator, and prioritising tasks, and being thorough in the work I carry out.

I would like to further my creative and organisational skills and to feed my passion of the media industry. My past jobs in media production have involved working as a team, working with clients and supporting the various roles within the production. I am able to take responsibility for a task and if needed, cover other roles.
