Junior Events Technician/
Warehouse Supervisor
Focus21 Hire & Events
Sept 2013-Nov 2014

EXPERIENCE

First joined to generally help out in the office and assist on events that needed camera work. As time passed, I found myself confident enough to take on more responsibilities' around the warehouse and prepping bigger shows with a positive knowledge of technical know how. The last 4 months there I took on the role of overseeing the warehouse, as well as producing, shooting and editing both an advert for a paying client and a company video..

Working on various types of production from documentaries, music and shorts. Responsibilities as a camera assist. However rarely change; good hand-to-eye co-ordination. Have a working knowledge of how the relevant camera equipment works. Good communication skills, and to be able to show diplomacy and sensitivity when working with crew. Take direction and work as part of a team and to carry out instructions with great accuracy and attention to detail, and finally work under pressure and in stressful situations.

I had some of the most fun working with these creative, hard working, passionate people. Filming the newest, freshest live acts and club night in Leeds. Filming under pressure and having to be quick on your feet as many live acts are unpredictable, but well worth it for the amazing footage you can capture.
