

CURRICULUM VITAE

KEN MAIR

Television Production

In addition to the information on the following pages, I also have a lot of experience of tutoring, lecturing and workshops, although I have no formal qualification for this aspect. I have a huge wealth of hands-on knowledge and a passion to pass it on in an industry which, sadly, no longer has any mechanism to do so. I would like to re-introduce 'respect' and enjoyment into television production.

I was a Mentor on the Film London Location Managers Course, and have lectured and coached undergraduates and post graduates at workshops over many years. I have recently assisted on the North West Vision training scheme for location assistants.
