- My most recent work has been prop design and build for The Gadget Show Live and building maintenance and constructions for The Gadget Show offices in Digbeth. I have also worked on Drama's such as Hustle series 6 for the BBC/Kudos and One Day for Channel 4/Blast Films.
- At BBC Pebble mill studios I built and sound soaked editing suites, news rooms and the Archers radio studio to name a few. I was part of the team who closed Pebble Mill Studios down and moved BBC Drama to the Drama Village.
- I also build office partitions and suspended ceilings
- Here are some recent pictures of my work:
