## Education

### 2011 - 2013

Leeds Metropolitan University (now Leeds Beckett)

BSc Computer Animation & Visual Effects

### 2009 - 2011

Pendleton College, Salford

Prior to working on Safe in 2017 I spent 6 months travelling South East Asia and Australia. During my travels I encountered varying cultures and saw a different approach to doing things. I feel that I have been able to learn from these cultural experiences and integrate them into my job role, particularly when meeting new people and being faced with unconventional challenges.

While at college and University I worked a part time job at Schuh, the footwear store in The Trafford Centre, Manchester. I spent 5 years working for the company selling thousands of pairs of shoes to a broad range of customers. This has helped me develop in the Location Department as there are similarities in dealing with disgruntled customers and people on location. I am able to appease where possible and approach any problems with the correct attitude.

Out of work my passions are snowboarding and playing the saxophone, though I'm a bit rusty at the saxophone at the moment. I also enjoy travelling as mentioned above and trying new (sometimes unnerving) experiences. Finally, I like to follow Manchester United and get to Old Trafford when I can. I think the current state of the football is a testament to my patience and loyalty!
