Experience/Skills

Malt Films

August 2013

I undertook four weeks work experience at Malt Films, one of London's leading full service video production agencies specialising in high end broadcast quality, fresh and innovative videos.

I worked on two short animation scripts for the charity Scope and co-wrote campaign scripts for Irn-Bru, Age UK, John Lewis and Sainsbury's. I worked closely with producers and animators to help with the finished animation and campaign videos for the scripts I had co-written.

I assisted on professional shoots during media week which involved liaising with clients, setting up equipment and using the camera myself. I created ideas and wrote a script for thirteen short videos to appear on the homepage of Malt Films' own website, which I then presented to producers.

In between given tasks I also helped colleagues with projects, from assisting with research to giving feedback along the way.

College trip

LA

2011

As part of a trip organised by South Essex College, I travelled to LA. I was given the opportunity to gain first-hand knowledge and experience of the

industry, with a workshop at the New York Film Academy, exclusive tour of Sony Pictures and sets at Universal Studios.

ITV

Red or Black

2011

I have previously been signed to a modelling agency where I have gained experience of photo shoots and busy schedules. In September 2011 I was an extra for a One Direction performance on the ITV show *Red or Black*. This gave me the opportunity to work alongside One Direction and Ant and Dec. I experienced behind the scenes of the ITV studios and witnessed first-hand what is involved in the production of a television show.

Interests

I enjoy taking part in extra curriculum activities such as collaborating with other media courses to assist on their projects. I have also worked with animation students at the Arts University College Bournemouth to produce script ideas for their third year final piece.
