### **Profile**

I consider myself to be innovative, organised and highly motivated; I approach all tasks with enthusiasm and work well under pressure. Still relatively new to the industry I am eager to learn and over the last five years I have gained a wide variety of experience on a number of low budget productions including two features where I have performed roles from Clapper Loader and Production Assistant to Writer/Producer/Director.

I have learnt to communicate clearly and effectively with my colleagues from both cast and crew. I am also used to working to tight deadlines and am willing and able to work long hours when necessary. I have a full UK driving licence and I currently drive and own my own vehicle. I am willing to work for low pay under the right conditions, as I am eager to find new opportunities in which I can gain more experience. I am conscientious, diligent and hard working at all times, and I always aim to perform to the best of my ability.
