---

As I come to the end of my degree I look back and see that although I enjoy all areas of production I have always been more drawn to roles within the production management department. Being a runner on my first professional film set confirmed this as I saw all the different responsibilities of the production office team and the assistant director on set. On my course I stand out most for my approach to leadership. As a producer I am a mentor, an advocate and a friend. I am creatively minded and can therefore develop and support the director's vision but I am also able to remain objective and can confidently make hard decisions keeping in mind the success of the project.
