Footworks by Audra, Fayetteville, AR. USA 1999-2001

I was a dance and drama teacher for children between the ages of 4-16 in an after school setting. My reason for leaving was due to relocation.

I was a dance and drama teacher for children between the ages of 5-17 in an after school setting. I was also responsible for teaching the performing arts lessons for the 125 girls in year 7 at Dover Girls Grammar School for three years. Part of that responsibility was devising a show for them to perform at the end of the academic year. During my time at DAPA I was also responsible for running several drama and dance clubs, which required me to devise and direct productions with the children. I remain available to Ms Dean for supply teaching.
