## Personal Profile

I am north east based but willing to travel, I have experience in lots of different eras and working on period dramas. I am an enthusiastic, self motivated individual who is quick and eager to learn new skills. I am easily motivated and look forward to any given challenge that is presented to me and will do my personal best to complete it.

Having previously worked in a fabric shop as a maker I would say my sewing skills are to a high standard. This includes patterns, tailoring and making.
